DETAILED ACTION

Allowable Subject Matter

Claims 9-39 are allowed.

The following is an examiner's statement of reasons for allowance: The closest art known to the Examiner is attached on the IDS forms attached to the present Office action. None of the cited references or combinations thereof disclose or suggest etching a second conductive layer to form a second electrode comprising a laminate structure of the first conductive layer with said first width and said second conductive layer with a second width; adding second impurity elements to said semiconductor layer using said second conductive layer as a mask to form a low concentration impurity region; and after forming the low concentration impurity region, etching said first conductive layer to form a third electrode comprising a laminate structure of said first conductive layer with a third width and said second conductive layer with said second width, as required by the presently claimed invention. With respect to the obviousness double patenting rejections, the rejection is withdrawn in view of Applicants' arguments (can't use text of reference, and failure to show or suggest third electrode) as set forth in Applicants' previous response.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
